

BOOTH MASK STICK PREMIUM

CKX-10.009

Characteristics:

Booth Mask Stick Premium is a water-based, sprayable masking that protects spray booth surfaces against paint overspray. Booth Mask Stick Premium allows the booth to keep clean, it creates a sticky protective film, which binds dust. The applied coat of Mask Stick is transparent, perfectly reflects the light, doesn't have any negative influence on a colour estimation. Booth Mask Stick Premium forms a film which does not completely dry out at ambient temperature. The film can easily be washed off with water or pressure washer.

Note: Protect from frost.

Technical data:

Shelf-life: 24 months Density: 1,1 g/cm³ Colour: brownish transparency Efficiency: 15 m²/l

Application

The product is ready to use.

Apply on a clean and dry surface with a spray gun with nozzle diameter 1,9 – 2, 2 mm in 3 normal coats with 10 min flash off between the coats. Adjust booth temperature to approx. 21 °C. Allow to dry completely.

Removal/ cleaning

Remove in booth temperature at approx. 21 °C. **TURN OFF ALL POWER TO BOOTH LAMPS AND ELECTRICAL OUTLETS.** Using a hose or pressure washer spray water onto all surfaces and let it soak for 5 minutes. Then rinse off with water, some areas may require using wash mitt or brush. Allow booth to dry.
